Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/06/2006 has been entered.

2. Newly submitted/amended claims 29-30 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The independent claim 29 directed to recognizing handwritten stroke command from a digital ink capture pad which is totally different invention from recognizing handwritten stroke command from a piece of paper, cardboard, plastic, metal, or cloth.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 29-30 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

į.

Drawings

3. The drawing is of insufficient quality for publication (Note handwritten portions).

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 10, 18, and 25, the prior art of records do not show the method of obtaining scanned handwritten command mark written with a conventional writing implement onto a conventional medium, wherein the conventional writing implement includes at least one of a pen and pencil and wherein the conventional medium includes at lease one a piece of paper, cardboard, plastic, metal, or cloth; and recognizing the scanned handwritten command mark as a command that may be executed by a processor, wherein the scanned handwritten command mark is recognized only if the scanned handwritten command mark is placed on a specified area of the conventional medium.

The prior art of records teach the similar concept but the handwritten stroke data is written on a surface of a digital inkpad by a stylus.

Art Unit: 2624

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONTACT INFORMATION

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Q. Le whose telephone number is 571-272-7424. The examiner can normally be reached on 8:30 A.M - 5:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jingge Wu can be reached on 571-272-7429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
